

# Software-Hardware List

## Software specifications

Chapter number	Software required (With version)	Free/Proprietary	If proprietary, can code testing be performed using a trial version	If proprietary, then cost of the software	Download links to the software	Hardware specifications	OS required
3-18	Python 3.6, PyTorch 0.4, Gym 0.10.5	Free				GPU with CUDA support is preferred for most of the examples.	Linux
13	Docker, Universe	Free				GPU is preferred	Linux
14-15	PyBullet, Roboschool	Free					Linux

## **Detailed installation steps (software-wise)**

Detailed installation instructions of basic software components are given in chapter 2. Extra packages are required for chapter 13 (docker and openai universe) and chapters 14-15 (roboschool and pybullet). Their installation is described in corresponding chapters.
